

Image Gently Pledge.

One size does not fit all...

*There's no question: CT (Computerized Tomography) helps save kid's lives!
But, when we image, radiation matters.*

- *Children are more sensitive to radiation*
- *What we do now, lasts their lifetimes*

Medical Center Clinic has taken the Image Gently pledge to provide the best care for our smallest of patients. From our radiologists and imaging staff, we pledge:

- *to make the image gently message a priority in staff communications this year,*
- *to review the protocol recommendations and, where necessary, implement adjustments to our processes,*
- *to respect and listen to suggestions from every member of the imaging team on ways to ensure changes are made, and*
- *to communicate openly with parents.*

Visit www.imagegently.com for more information on what you can do as a parent, and to learn about the Alliance for Radiation Safety in Pediatric Imaging.
